

B. High-Quality, Accountable Programs

(B)(1) Developing and adopting a common, statewide Tiered Quality Rating and Improvement System. (10 points)

The extent to which the State and its Participating State Agencies have developed and adopted, or have a High-Quality Plan to develop and adopt, a Tiered Quality Rating and Improvement System that--

(a) Is based on a statewide set of tiered Program Standards that include--

- (1) Early Learning and Development Standards;
- (2) A Comprehensive Assessment System;
- (3) Early Childhood Educator qualifications;
- (4) Family engagement strategies;
- (5) Health promotion practices; and
- (6) Effective data practices;

(b) Is clear and has standards that are measurable, meaningfully differentiate program quality levels, and reflect high expectations of program excellence commensurate with nationally recognized standards¹⁴ that lead to improved learning outcomes for children; and

(c) Is linked to the State licensing system for Early Learning and Development Programs.

In the text box below, the State shall write its full response to this selection criterion. The State shall include the evidence listed below and describe in its narrative how each piece of evidence demonstrates the State's success in meeting the criterion; the State may also include any additional information it believes will be helpful to peer reviewers. If the State has included relevant attachments in the Appendix, these should be described in the narrative below and clearly cross-referenced to allow the reviewers to locate them easily.

In scoring the selection criterion, peer reviewers will determine, based on the evidence the State submits, whether each element of the selection criterion is implemented or planned; the quality of the implementation or plan (see the definition of a High-Quality Plan for the components reviewers will be judging); the extent to which the different types of Early Learning and Development Programs in the State are included and addressed; and the extent to which the unique needs of the State's special populations of Children with High Needs are considered and addressed. The State is responsible for providing clear and detailed information to assist the peer reviewers in making these determinations.

Evidence for (B)(1):

- The completed table that lists each set of existing Program Standards currently used in the State and the elements that are included in those Program Standards (Early Learning

and Development Standards, Comprehensive Assessment Systems, Qualified Workforce, Family Engagement, Health Promotion, Effective Data Practices, and Other), (see Table (B)(1)-1).

- To the extent the State has developed and adopted a Tiered Quality Rating and Improvement System based on a common set of tiered Program Standards that meet the elements in criterion (B)(1)(a), submit--
 - A copy of the tiered Program Standards;
 - Documentation that the Program Standards address all areas outlined in the definition of Program Standards, demonstrate high expectations of program excellence commensurate with nationally recognized standards, and are linked to the States licensing system;
 - Documentation of how the tiers meaningfully differentiate levels of quality.
